# **WELCOME**

SAVE BIG MONEY. Abrams College has discovered that students can save money on textbooks by ordering directly from Internet sites such as “amazon.com” and other providers of textbooks. We have seen some textbooks discounted as much as 80%!

The College has repeatedly requested that the publishers discount book prices for our students to be the same as Internet prices. They have all refused. Therefore, we have listed each textbook with the identification number (ISBN) as well as the publisher, author and current edition for those who wish to purchase textbooks from other sources. Please note that some textbooks are only available through Abrams College, such as study guides and DVD's.

Please be cautious whenever using these sites and use your best judgment regarding giving credit card information or other personal information over the web.

## **ABRAMS COLLEGE BOOKSTORE**

Abrams College provides a complete line of the essentials for programs offered at Abrams College. Each and every program offered through the college has three separate listings:

### **1. Required Books & Materials**

These items listed under this heading are required by students to successfully complete the program of study.

### **2. Required Uniforms**

Most programs have a uniform requirement. Because of limited space, Abrams College only carries uniform T-Shirts for EMT's and medical scrubs for all other medically related programs. For the EMT program, students are encouraged to shop for boots, pants and belts around Modesto for the best price.

### **3. Optional Materials**

Materials under this heading are not required, but will enhance the students learning through the educational process.
